# Agenda
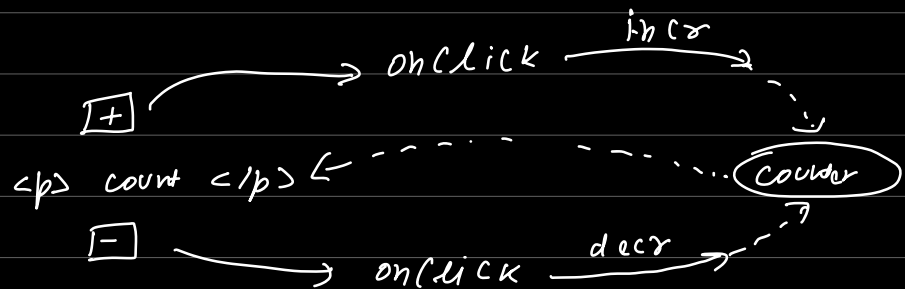

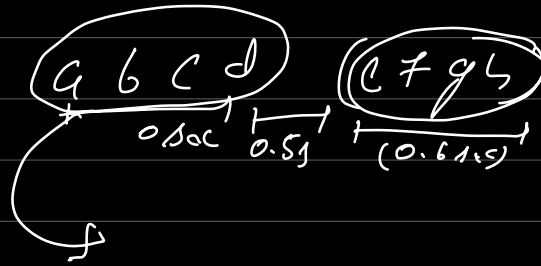

① Setup dev-env. using @ vite

② state and dynamic UI

③ forms in React : Controlled component.

④ lifting the Setup

① Counter

①

$$\boxed{a\ b\ c\ d} \quad \boxed{e\ f\ g\ h}$$

0 sec ⊢0.5s⊣ (0.6 ms)

f

② 

$\boxed{a\ b\ c\ d\ e\ f}$

⊕

→

(*)     npm    create    vite @ latest

(*)        < project name >
       < react >
       < java script >

(*)   run:
       npm   i
       npm   run   dev

CW input: [____ - ___ . . ____]

- abc
- def
- ghi

```
                    ┌──────────┐
                    │  parent  │
                    └──────────┘
              add item to        List of item
            Certad list
┌─────────┐                        ┌─────────┐
